Home Enrichment Activities

Here are some suggested activities for you to do at home with your child that will enhance their learning this half term. (These do not need to come into school.)

- Go on an Autumn Walk looking for signs of autumn.
- Spot the letters and sounds that you are learning in signs around you and in books that you are reading and sharing at home.
- Practice counting - you could count how many steps up your stairs (if you have any), count out some of your toys, fruit etc.
- Share fairy stories or nursery rhymes.

Thank you.
